

Care Homes ~ Extra Care Development

Sanctuary Housing, Exning, Newmarket, Suffolk

Completed Pergola to Provide Shelter with Seating.

Project Description

ELD has worked with various design teams acting for the Sanctuary Group in Cambridgeshire, who provide sheltered housing & extra care facilities for older people, such as the frail & those suffering from dementia. The specially designed grounds aim to provide an attractive environment in which residents can maintain an independent, yet secure lifestyle.

ELD Responsibilities

ELD has completed tree surveys & detailed landscape designs for hard & soft elements, to successfully gain planning approval for numerous Sanctuary developments at Sawston, March, Exning, Isleham, Soham, Stretham & Swaffham Bulbeck.

ELD completed the design for all hard & soft landscape elements for this extra care scheme at Exning, near Newmarket, with specific requirements for wheelchair access & residents with dementia, to include: circular paths, potting & vegetable growing areas, private patios, water features, an internal courtyard & marker point style planting, that stimulates the senses throughout the year.
